

# London Energy Partnership

## **CHP for RSLs**

The London Energy Partnership is holding a half-day workshop designed to help registered social landlords understand, develop, implement and manage community heating networks and CHP systems.

The workshop is being held at:

**Greater London Authority, City Hall, Queens Walk, London SE1 2AA,  
on 29<sup>th</sup> January**

Starting times and session details below

It is well known that combined heat and power along with heat networks are one of the most effective ways of reducing carbon emissions and improving security of supply with great potential for lowering end user costs, achieve higher levels of the Code for Sustainable Homes in new build and improving administration and management of energy supply. However, there may well be a number of challenges when developing, setting up and managing a community CHP system.

**STOP PRESS:** The two sessions have now merged in to one session on Thursday 29<sup>th</sup> January. The Friday session has been cancelled.

We do not discourage anyone from attending the session and we welcome your attendance regardless of job role. We welcome attendees from all social housing providers from housing associations to ALMOs and beyond.

### **Thursday 29<sup>th</sup> January – Committee Room 5**

#### **2:00 Welcome and Introduction**

Michael King, CHPA and Chair LEP CHP task group

#### **2:10 Why Consider CHP?**

Syed Ahmed, GLA Energy Team

#### **2:25 CHP and heat networks: From Start to Finish**

Mark Howell, Vital Energy

#### **2:45 How it can be done: financing and managing community CHP, is an ESCO the right option? Where does the risk lie? How to manage your billing**

David Pitcher, Thamesway

#### **3:05 Tea Break**

#### **3:25 Panel Discussion**

What do you know, want to know, what are your issues with Community CHP? What information and assistance do you need?
